 Subject: [REDACTED] WILL DELETE THIS AFTER THE CALL FYI.

Steven/Carlo..... numbers very very very very off

Steven apologies... he will fix it for us

Presale market is wacky

couple choices

1. can cancel [REDACTED] --- Secondary market repercussions for canceling
2. 3M cutting to 2M --- from [REDACTED] = Secondary market repercussions for canceling
3. [REDACTED].. biggest fund ever
4. [REDACTED] = massive, [REDACTED] got into [REDACTED] told them they only have a couple days... pissed off [REDACTED] who runs [REDACTED]. [REDACTED] and [REDACTED] talked about [REDACTED] going to [REDACTED]. [REDACTED] is \$3.8M. [REDACTED] needed the respect. They will hate [REDACTED]. [REDACTED] pissed off at the [REDACTED] project until Steven fixed it.
5. After market is very important.

Alchemist might end up with no tokens... :(

1. [REDACTED] project --- Steven pushing hard to use [REDACTED] as the project for the [REDACTED]
2. [REDACTED] == the COINSORTIUM project. Would like [REDACTED] to be considered a founding member.
3. This is all perception. Elevating our status.

... Alchemist got us a crazy advisor board. We got the buzz. [REDACTED] + adding in 800-1,000 coin holders. This is huge (Pre-Sale/HubSale) Distributed.

1. [REDACTED] (cap is \$100M) is doing well.
2. Need to reserve a bit for >>>>> for [REDACTED] + for [REDACTED] >>> We need to give to them. +++ also [REDACTED] Also [REDACTED] ++++++
- o [REDACTED]s attorney) said he's behind figuring out a way to get [REDACTED] an ICO platform. And for the [REDACTED] to be there.
- 3.

The final suggestion.... We need to make it with \$20M... is what he says.... (context setting by Steven).

1. Alchemist give back all their Tokens > and have only ETH. ----> come up with a new ratio ("Fair") 22.5% give back (of [REDACTED]), then what we do to the ETH (22.5%) ----> We should get back to them w a number.
2. [REDACTED] wallet right away.... as long as we have the resources....

[REDACTED] PR is a partner with the [REDACTED] guys???? >> TMI (don't tell them we know this). *****

TBD on what the Deal term is with them, top is 7%..... ?? Whatever number they come back with, go back to [REDACTED] and ask to help negotiate a better deal. [REDACTED] can talk to Steven... Smart guys. Ok.....

Think about it backwards. = what funds do we really need to accomplish what we need. \$50M was a reach / realistic number.

Alchemist is giving back 22.5% in STORM:

- 1) part 1 = give ETHER for Tokens at some ratio for them

2) part 2 = increase allocation, or does Steven want to go ask for [REDACTED] from his hubs directly. Steven would like the option to decide.
